

LET'S TALK ABOUT:

Purpose

Big Idea: Purpose is the reason for our actions and/or existence. It is what gives us direction in our lives and decisions. Ultimately, our purpose is the why behind what we do. When we lack an understanding of the purpose, we are prone to wander aimlessly or to become frustrated in confusion. However, when we understand the purpose of our existence, we have clarity in where we want to go and what we want to be.

DAD TO KID	What is one thing I ask you to do that you don't enjoy? What do you think is the purpose of it?
DAD TO KID	What is something you would like to do that has a great purpose?
KID TO DAD	What is one thing you do because it has a great purpose?
KID TO DAD	Why do you consider the purpose of that thing important?
